Our History:

The health industry is one of the most important industries of every country. With the number of people getting admitted into hospitals, the equipment used needs to be top notch as well.
Surgical instruments are the tools which are used by doctors in hospitals while performing surgeries, operations and other kind of procedures. These are instruments are each designed in a different way in order to carry out specific actions. We **Credible surgical®** going to play a vital role in the surgical instruments industry. by providing the products trusted for value and commitment performence

Credible surgical® venture to come up to our customer satisfaction through quality, effeciency, fasted delivery on competitive prices, we would definitely want to help and share this business growth with our customer Satisfaction which can pave away towards better understanding and long term business relations.

History of Credible Surgical® We are working in the field of surgical instruments since 1952 , in these year of shear excellence and motivation of skilled and precision of craftsmanship **History Credible Surgical®** is the pioneer who laid down foundation stone of surgical instruments manufacturing in Sialkot **(Pakistan)**

MADE IN PAKISTAN

OurProductionDivision:

Facilitated with technical team with high effeciency. Our goal is to provide the safest, economical & most advanced health care range of Instruments worldwide. Our Surgical Instruments and Ortho Implants are manufactured with use of Quality Material in our technologically advanced Plants. We continuously upgrade our manufacturing assets with up to the minute equipment and computerized machineries. The ideal material and Designs are chosen specially for each Product manufactured.

Quality Standard:

Credible Surgical® is certified to meet ISO standard 13485..2016 and CE mark Recognized as a mark of Excellence applicable to our management systems, Processes and Production.

We present our catalogue detailing our range for General Surgery Instrumentation.

These specialist Instruments are manufactured to the highest possible standards with the use of most modern Technology.

We are subject to continual assessment of these procedures to ensure standards are maintained by an independent outside notified body.

Also we are certified by cGMP & CE Quality Management...

House Gelfoam Pressure Forceps

Holds Gelfoam material under compression until insertion, preventing it from swelling due to moisture in the air.

Pinza de compresión de House, para comprimir Gelfoam

La pinza retiene la materia bajo presión hasta el momento de la introducción, para evitar el hinchamiento bajo la influencia de la humedad del aire.

Pince à compression de House, pour Gelfoam

La pince retient le matériau sous pression jusqu'au moment de l'introduction, pour éviter un gonflement sous l'influence de l'humidité atmosphérique.

Verbesserte Anordnung der Sauglöcher bewirkt effektiveres, schonenderes Absaugen in bindegewebs-starken Regionen sowie bei Gynäkomastie.

The improved arrangement of the suction holes ensures a more effective and gentle suction in areas with much connective tissue and in case of gynecomasty.

La organización mejorada de los agujeros de succión garantiza una succión más efectiva y suave en las reglones con mucho tejido conjuntivo y en caso de ginecomastla.

L'ordre amélioré des trous á suction garantit une suction plus effective et plus douce dans des régions avec beaucoup de tissu conjonctif et en cas de gynécomastie.

Sperrer mit Gelenken, bestehend aus:
Retractor, adjustable, consisting of:
Separador ajustable que consta de:
Ecarteur avec articulations, se composant de:

46-5931-00 Sperrer allein
Retractor only
Bastidor solo
Ecarteur seul

46-5932-40 - 46-5932-60
5 mediale Blätter
medial blades
valvas medialas
valves medianes

46-5933-40 - 46-5933-60
5 laterale Blätter
lateral blades
valvas laterales
valves latérales

Durch Umstecken der Schraube ist der Sperrer von beiden Seiten verwendbar.

By reversing the screw, retractor can be used from both sides.

Cambiando el tornillo, se puede usar el separador desde ambos lados.

En changeant la position de la vis, l'écarteur peut être utilisé des deux cotés.

Vorzugsweise in Wirbelsäulen-Längsachse zu verwenden
To be used preferably for up and down retraction
para uso preferente en el eje longitudinal de la columna espinal
A utiliser de préférence dans l'axe longitudinal
de la colonne vertébrale

A

Einige Mikro-Pinzetten mit Rundgriff sind auch in der Ausführung ,,Heifetz"(A) oder „mit Gegengewicht"(B) lieferbar. Fragen Sie im Bedarfsfall bitte an.

Some Micro Forceps with Round Handles are also available as "Heifetz"(A) or "counterbalanced"(B) patterns. Ask for details.

Algunas micro-pinzas con mangos redondos se suministran también con diseño „Heifetz" (A) o „con contrapeso" (B). En caso de interés esperamos sus demandas.

Certains micropinces à manches rotatifs sont également disponibles en modèle „Heifetz" (A) ou en modèle „contrebalancé" (B). Demandez les détails, s.v.p.

House

Gelfoam-Quetschzange nach House
Die Quetschzange hält das Gelfoam-Material unter Druck bis zum Zeitpunkt des Einsetzens und vermeidet dadurch dessen Aufquellen durch die Luftfeuchtigkeit.

House Gelfoam Pressure Forceps
Holds Gelfoam material under compression until insertion, preventing it from swelling due to moisture in the air.

Pinza de compresión de House, para comprimir Gelfoam

La pinza retiene la materia bajo presión hasta el momento de la introducción, para evitar el hinchamiento bajo la influencia de la humedad del aire.

Pince à compression de House, pour Gelfoam
La pince retient le matériau sous pression jusqu'au moment de l'introduction, pour éviter un gonflement sous l'influence de l'humidité atmosphérique.
